47 Reflex emerald

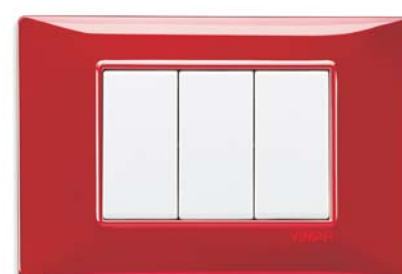

48 Reflex orange

49 Reflex tobacco

50 Reflex sapphire

51 Reflex ruby

## Equipment and cover plate customization

### Switches and cover plates with customization

VIMAR laser technology allows the reproduction of any name, logotype or trademark with absolute precision and indelebility, even for small quantities.

The following symbols are laser engraved:

- **all symbols of the articles present in this catalogue;**
- **the symbols and wordings** underneath; to order them, the desired article is to be completed with the relevant code of the desired symbol or wording (i.e. 14021.01 = 1P 16 A 1-way switch with symbol .01)

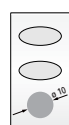

- **symbols, logotypes or trademarks on request:** send, with the order, the black and white image to reproduce, 2-3 times larger than the desired dimension. In case of articles with standard symbol, it should be indicated if what requested is in addition to, or in place of, the standard symbols.

With the laser technology, colours cannot be reproduced. If no other indication is given, the symbol will be engraved on the bottom of the operating mean or on the space free of other standard symbols

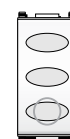

Examples of customized buttons.

### Possible customization positions

Button with lightable disc pilot lamp (14021.G, 14022.G, 14023.G).  
Customization **visible** in the dark.

Standard switch or button with lightable ring pilot lamp (14021, 14022, 14023).  
Customization **not visible** in the dark.

### Standard symbols and wordings (♦ symbols on catalogue equipments)

01	02	03	04	05	06	07	08	09	10	11
12	13	14	15	16	17	18	19	20	21	♦51
										open
♦52	♦53	54	55	56	57	58	59	60	61	222
come in	bathroom	cellar	close	outside	garage	general	garden	back	light	OFF
223	224	225	226	227	28	229	230	231	232	33
ON	storeroom	stairs	attic	terrace	alarm	do not disturb				
34	235	236	237	238	49	50				

### Customized cover plates

VIMAR's laser technology makes it possible to create custom cover plates for enhancing the image and prestige of users in the hotel industry (hotels, residences, resorts) and services sectors (clinics, treatment centres), as well as for industrial groups, public institutions, etc.

Any trademark or logo can be reproduced with complete accuracy on basic and Reflex colour cover plates, except for iridescent brown (23), polished gold (24) and matt gold (25).

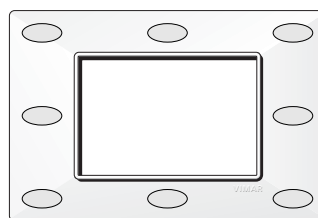

Example of basic colour cover plate customization (Matt nickel)

Example of Reflex colour cover plate customization (Orange)

### Possible customization positions

# Equipment and cover plate customization

Warnings

Laser customization advantages

- indelible engraving that does not deteriorate over time
- high-precision reproduction even of very fine lines and complex images
- service available even for minimal quantities
- possibility of ordering the same customization at different times with identical results, as all customizations are stored on magnetic supports.

The few limits of technology

- It is not possible to reproduce coloured images
- **The following cover plates can not be customized: iridescent brown (23), polished gold (24) and matt gold (25)**

What to supply

- a printout or transparency of the image to be reproduced, in black-and-white on a scale 2 or 3 times larger than finished size
- the image may also be supplied on magnetic support, together with hard copy: DOS or MAC diskette with image in EPS or TIFF format (consult your printer or graphic artist)

- as to button engravings, make sure that the desired symbol or label is not already included in the table "Standard symbols and wordings" above; if so, simply indicate the corresponding code in addition to the article code in your order

Things to avoid

- do not provide photocopies
- do not fax the image to be reproduced, since the low definition of the fax makes it impossible to reproduce the document in laser quality

How to proceed

- photocopy this page and fill it in carefully
- enclose the image to be reproduced, without using paper clips, staples or adhesive tape
- deliver all the documentation to your area wholesaler/distributor, who will then forward it to Vimar

Estimated delivery time for equipments and cover plates

- 10 working days for the sample
- 10 working days from the order confirmation
